**20MY Legacy & Outback Owner’s Manual Supplement**

**Additional information for the Center Information Display**

Please refer to the separate Owner’s Manual for information not covered in this supplement. Please keep this supplement with your Owner’s Manual and leave it in the vehicle at the time of resale. The next owner will need the information it contains.

The function has been changed by the software update of the Center Information Display. The list of the changes to the Owner’s Manual due to this update are below.

PAIRING THE SYSTEM WITH A Bluetooth PHONE/DEVICE

» Display the phone screen.

Prepare the Bluetooth phone/device to be paired.

» Operate the Bluetooth phone/device.

Turn the Bluetooth function of the Bluetooth phone/device ON and select the vehicle’s device name.

» Register the Bluetooth phone/device.

If a confirmation message appears asking whether to transfer the phone’s contact data to the system, select the appropriate button.

If unable to pair, check whether your Bluetooth phone/device is compatible with the system.
PAIRING THE SYSTEM WITH A Bluetooth PHONE/DEVICE

» Display the phone screen.

» Operate the Bluetooth phone/device.

» Register the Bluetooth phone/device.
If a confirmation message appears asking whether to transfer the phone’s contact data to the system, select the appropriate button.

If unable to pair, check whether your Bluetooth phone/device is compatible with the system.

Prepare the Bluetooth phone/device to be paired.

Turn the Bluetooth function of the Bluetooth phone/device ON and select the vehicle’s device name.

When using an NFC compatible device, it is not necessary to perform the above procedure.
Pairing can be performed by holding the device against the NFC logo of the audio system with the NFC setting on.

REGISTERING A Bluetooth PHONE/DEVICE

Up to 5 Bluetooth phones/devices can be registered.
Bluetooth compatible phones (HFP) and devices (AVP) can be registered simultaneously.
This operation cannot be performed while driving.

1. Display the phone settings screen. (→P.77)
2. Select **Manage Devices** (Manage Devices).
3. → **Add** (Add)
   - If a message appears, follow the guidance on the screen.

4. When this screen is displayed, search for the device name displayed on this screen on the screen of your Bluetooth phone/device.

   ![Device Name: Legacy/Outback](image)
   - **Cancel** (Cancel): Select to cancel the registration.
   - For details on operating the Bluetooth phone/device, see the manual that comes with it.

5. Register using your Bluetooth phone/device.
   - A PIN-code is not required for SSP (Secure Simple Pairing) compatible Bluetooth phones/devices. Depending on the type of Bluetooth phone/device being connected, a message confirming registration may be displayed on the Bluetooth phone's/device's screen. Respond and operate the Bluetooth phone/device according to the confirmation message.

- Operation Flow: Presetting a Radio Station -

» Select the radio band and the radio station.

A valid subscription to SiriusXM® Radio is required to receive satellite radio service.

» Register the radio station.

Mix preset function
Multiple stations can be registered as presets. (AM, FM or SiriusXM® Radio)
P.144, 153

Select and hold one of the preset buttons.

USEFUL SiriusXM® Radio FUNCTIONS

- Smart Favorites:
The first 10 channels which are registered to a preset button will automatically be registered to Smart Favorites. Channels registered to Smart Favorites can be cached and played back as desired within a certain amount of time. P.93

- Tune Scan:
Channels registered to Smart Favorites can be scanned to find a desired channel. P.149

- Tune Start:
When this function is on, channels registered as Smart Favorites will be cached, and when the channel is changed, the song on that channel can be listened to from the beginning. P.93

- Traffic & Weather Now:
If a city is selected, traffic information and weather news for that city can be heard. P.149

- Favorite Teams:
If you have registered your favorite sports teams, you can be informed of when games start and their progress. P.156

- TuneMix:
If multiple channels for which TuneMix is possible have been registered as TuneMix channels, songs from these channels can be listened to randomly. P.157
Item Number 4

Start a search with a variety of words such as addresses, facility names, intersection names, or latitude/longitude.

Customized home screen layout P72
Frequently used functions and operations can be added to the home screen.

Example: For calling specific phone numbers, listening to specific radio stations, etc.

The position of screen buttons can be changed by selecting and holding it, then dragging it to the desired position.

System and Bluetooth phone / device pairing P42
Functions such as hands-free and applications can be used by connecting the system with Bluetooth phones / devices wirelessly.

Apple CarPlay / Android Auto
Support for Apple CarPlay and Android Auto allows access to functions such as maps, phone calls, and music.
**Apple CarPlay**

CarPlay can be used to view Apple Maps, play music, and place calls by connecting an Apple CarPlay device to the system. Supported applications can also be run.

To use the Apple CarPlay application, connect an Apple CarPlay device to the USB port with undamaged genuine USB cable.  P.121

For details on the services or the operations, check the Apple CarPlay site (https://www.apple.com/ios/carplay/).

---

**Android Auto**

Android Auto can be used to view Google Maps, play music, and place calls by connecting your Android device to the system. Supported applications can also be run.

To use the Android Auto application, connect your Android device to the USB port with undamaged genuine USB cable.  P.124

For details on the services or the operations, check the Android Auto site (https://www.android.com/auto/) and (https://support.google.com/androidauto/).

---

**MySubaru**

Access SUBARU STARLINK from “SUBARU STARLINK Safety and Security” for a variety of remote services.

Refer to the Owner’s Manual supplement for “SUBARU STARLINK Safety and Security” for details.
Apple CarPlay

Apple CarPlay

CarPlay can be used to view Apple Maps, play music, and place calls by connecting an Apple CarPlay device to the system. Supported applications can also be run.

- For details on the services or the operations, check the Apple CarPlay site (https://www.apple.com/ios/carplay/).

To use the Apple CarPlay application, connect an Apple CarPlay device to the USB port.

When using the application, read the precautions indicated in “BEFORE USING APPLICATIONS”. (→P.112)

NOTE

- Use an undamaged genuine USB cable when using this function.
- Enable Apple CarPlay in the Apple CarPlay device's restriction settings before using this function.

CONNECTING THE Apple CarPlay DEVICE

1. Connect an Apple CarPlay device to the USB port. →P.66
2. Check the confirmation message, and then select Yes (Yes).
   - The Apple CarPlay screen will be displayed.
   - If “Don't show again.” is selected, the confirmation message will not be displayed again.

OVERVIEW

Select Apple CarPlay (Apple CarPlay) on the home screen to display the Apple CarPlay screen.
Item Number 7

Control screen

11.6-inch display system/11.6-inch display with Navi system

1. Displays the application buttons. Select to start the application.

TALKING ON THE Bluetooth PHONE

While talking on the phone, this screen is displayed. The operations outlined below can be performed on this screen.

11.6-inch display system/11.6-inch display with Navi system

Select to mute your voice to the other party.

Select to enter the desired numbers/output tones. This operation cannot be performed while driving.

Select to transfer the call. Select Transfer (Transfer) to change from a hands-free call to a cellular phone call. Select Transfer Back (Transfer Back) to change from cellular phone call to hands-free call.

Select to hang up the phone.

NOTE

- Changing between cellular phone call and hands-free call can be performed by operating the cellular phone directly.
- Transferring methods and operations will be different depending on the type of cellular phone you have.
- For the operation of the cellular phone, see the manual that comes with it.
- Turn the "VOLUME" knob, or use the volume control switch on the steering wheel to adjust the volume of the other party's voice.

Dual 7.0-inch display system

In the case of accepting an interrupt incoming call during a call

The first call is put on hold.

- **Swap** (Swap): Select to change parties.
- Each time **Swap** (Swap) or name area is selected, or press the switch on the steering wheel, the party who is on hold will be switched.

**UPDATING THE SYSTEM**

Please ask your dealer to update the system software*1.

11.6-inch display system/11.6-inch display with Navi system only: You may also update the system software via Wi-Fi. The update process involves downloading and installing a software update*2. Note that system functionality will be restricted during installation.

*1: Please check with your dealer for specific details on the update content.
*2: Depending on the software update content, your radio station presets and volume settings may be reset by the update process.

**DOWNLOAD UPDATE**

1. Display the home screen. (→P.40)
2. Select **Settings** (Settings).
3. → **General** (General)
4. → **Clock** (Clock) → **Time Setting** (Time Setting)
5. → **AUTO** (AUTO)
6. Connect to a Wi-Fi network (→P.85).
7. Display the general settings screen. (→P.83)
8. → **Software Update** (Software Update)
9. → **Update** (Update)
10. → **Check for Updates** (Check for Updates)

- If **Automatically Check for Updates** (Automatically Check for Updates) is enabled, an update check will be performed automatically before proceeding to the next step.
- If **Automatically Download Updates** (Automatically Download Updates) is enabled, software updates will be downloaded automatically when checked for.
Apple CarPlay

CarPlay can be used to view Apple Maps, play music, and place calls by connecting an Apple CarPlay device to the system. Supported applications can also be run.

- For details on the services or the operations, check the Apple CarPlay site (https://www.apple.com/ios/carplay/).

To use the Apple CarPlay application, connect an Apple CarPlay device to the USB port.

When using the application, read the precautions indicated in “BEFORE USING APPLICATIONS”. (→P.112)

NOTE

- Use an undamaged genuine USB cable when using this function.
- Enable Apple Carplay in the Apple CarPlay device’s restriction settings before using this function.

CONNECTING THE Apple CarPlay DEVICE

1. Connect an Apple CarPlay device to the USB port. →P.66
2. Check the confirmation message, and then select Yes (Yes).
   - The Apple CarPlay screen will be displayed.
   - If “Don’t show again.” is selected, the confirmation message will not be displayed again.

OVERVIEW

Select Apple CarPlay (Apple CarPlay) on the home screen to display the Apple CarPlay screen.
Item Number 11

Control screen

SOME BASICS

This section describes some of the basic features of the audio system. Some information may not pertain to your system.

Your audio system works when the ignition switch is turned to the “ACC” or “ON” position.

⚠️ CAUTION

● To prevent the battery from being discharged, do not leave the audio system on longer than necessary when the engine is not running.

TURNING THE SYSTEM ON AND OFF

“VOLUME” knob: Press and hold until a message is displayed, and then select OK (OK) or wait a few seconds for the audio system to turn off. Press and hold to turn the system on again. The system will turn on with the last audio source used. Turn this knob to adjust the volume. Press to mute the audio system.

▶ Dual 7.0-inch display system only

RADIO, MEDIA: Press to display screen buttons for the audio system.

NOTE

● The audio system will remain off if you change the position of the ignition switch from “LOCK”/“OFF” to “ACC”/“ON” while the audio system is off. If you had set the volume to mute, the audio system will remain mute and the track will start playing from where it was last stopped.
iPod

When an iPod is connected, you can play iPod music files. On this unit, you can perform operations such as selecting a file from a list or changing to the random playback mode.

At devices which support Apple CarPlay, turn Apple CarPlay off in the device side restriction settings.

**CONNECTING THE iPod**

1. Connect an iPod to the USB port. → P.66
2. Check the confirmation message, and then select No (No).
   • If “Don’t show again.” is selected, the confirmation message will not be displayed again.
   If the connected device is recognized as an Apple CarPlay device, select the device from the Apple CarPlay device list to remove the check mark. (→ P.122)

**OVERVIEW**

Select iPod/iPhone (iPod/iPhone) on the media control screen. (→ P.137)

**Control panel**

1. Turn to adjust the volume.
   Press to mute the audio system.
   Press and hold to turn the audio system off, and press and hold to turn it on again.

2. Turn to change the track.
   Press and hold to display the sound customization screen.
